STRONGER CONSTRUCTION UTILIZING THICKER METAL
INTERNALLY COATED
BOTTOM HAS NOT BEEN CUT AND WELDED COMPROMISING INTEGRETU
SURE LOCKING FILL CAP AND NO MORE LOST PARTS
OPERATES THE SAME AS 20 LITER UNIT WITH INTERCHANGEABLE PARTS

This 10 liter chemical hand pump has been designed to fit comfortably in an upright position within your truck bed. The shorter configuration allows for easier transportation and handling of the unit. Additionally the unit can now be stored in a safe secure manner. The **ITHP-1K-10L** can attain pressures up to 1000 psi, and the **ITHP-3K-10L** operates up to 3000 psi.. Superior construction and an internal coating makes for a stronger more durable unit. The design of the pump head allows for easy maintenance and access to parts. Whether you are injecting chemical or pressure testing, this unit is up to the task.
